

## Kahoot! Setup Instructions

**NOTE: If you are unable to download the Kahoot! app to your mobile device, a QR code will be provided at the session and you will be able to participate via a web-based version of Kahoot! from your device.**

**Step 1:** download game from app store.

**Step 2:** Open the app and you will see a "Welcome!" Screen. Select "Next".

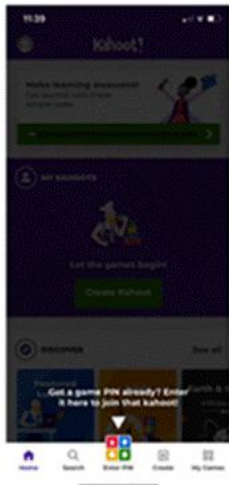

**Step 3:** It will tell you that you need to answer 2 questions before you start. The first question looks similar to the picture below. It will ask you to choose one of the options. You must choose "for work" or "professional", whichever of those two options it shows.

**Step 4:** You will then be brought to the below screen and again given 4 options. You need to choose “As a player” or “As a participant”, whichever of those two options it shows.

**Step 5:** It will then bring you to the below screen. You will need to click on the icon at the bottom center of the screen. (Continue to step 6 on next page)

**Step 6:** The screen below will appear or a version of it. You will enter the pin that will be provided at the session.
